Treasury Management Practice (TMP) 1 RISK MANAGEMENT

1. CREDIT AND COUNTERPARTY RISK MANAGEMENT

1.1 CRITERIA TO BE USED FOR CREATING AND MANAGING APPROVED COUNTERPARTY LISTS/LIMITS

1.1.1 The Welsh Government issued revised Investment Guidance in April 2010, and this forms the structure of the Commissioner's policy below.

1.1.2 The key intention of the Guidance is to maintain the current requirement for Local Authorities and Police and Crime Commissioners to invest prudently and that priority is given to security and liquidity before yield. In order to facilitate this objective the guidance requires the Commissioner to have regard to the CIPFA publication Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes (2011 edition). **TMP 1(1), covering investment counterparty policy requires approval each year.**

1.1.3 **Annual Investment Strategy** - The key requirements of both the Code and the investment guidance are to set an annual investment strategy, as part of its annual treasury strategy for the following year, covering the identification and approval of following:

- a) The strategy guidelines for choosing and placing investments, particularly non-specified investments;
- b) The principles to be used to determine the maximum periods for which funds can be committed;
- c) Specified investments the Commissioner will use. These are high security (i.e. high credit rating, although this is defined by the Commissioner, and no guidelines are given), and high liquidity investments in sterling and with a maturity of no more than a year (two years for Local Authorities and five years for Property Funds); and
- d) Non-specified investments, clarifying the greater risk implications, identifying the general types of investment that may be used and a limit to the overall amount of various categories that can be held at any time.

1.1.4 The investment policy proposed for the Commissioner is:

Strategy Guidelines – The main strategy guidelines are contained in the Treasury Management Strategy.

Specified Investments – These investments are sterling investments of not more than one-year maturity (two years for Local Authorities and five years for Property Funds), or those which could be for a longer period but where the Commissioner has the right to be repaid within 12 months if he wishes. These are considered low risk assets where the possibility of loss of principal or investment income is small. These would include sterling investments which would not be defined as capital expenditure with:

- a) The UK Government (such as the Debt Management Account Deposit Facility (DMADF), UK Treasury Bills or a Gilt with less than one year to maturity);
- b) Supranational bonds of less than one year's duration;
- c) A Local Authority, parish council or community council;
- d) Property Funds;

- e) Pooled investment vehicles (such as money market funds) that have been awarded a high credit rating by a credit rating agency. Money Market Funds, have to be rated AAA by Standard and Poor's, Moody's or Fitch rating agencies; and
- f) A body that is considered of a high credit quality (such as a bank or building society. This covers bodies with a minimum short term rating of P1/F1/A1 (or the equivalent) as rated by Standard and Poor's, Moody's or Fitch rating agencies.

Within these bodies, and in accordance with the Code, the Commissioner has set additional criteria to set the time and amount of monies which will be invested in these bodies. Non-specified investments will not be utilised.

1.1.5 The Monitoring of Investment Counterparties - The credit rating of counterparties will be monitored regularly. The Commissioner receives credit rating information (changes, rating watches and rating outlooks) from Link Asset Services (formerly known as Capita Asset Services) as and when ratings change, and counterparties are checked promptly. On occasion ratings may be downgraded when an investment has already been made. The Commissioner retains the right to continue an investment until it matures in the event of a down-grading providing that the exposure risk can be managed and/or mitigated appropriately. The criteria used are such that a minor downgrading should not affect the full receipt of the principal and interest. Any counterparty failing to meet the criteria will be removed from the list immediately by treasury management staff and if required new counterparties which meet the criteria will be added to the list.

1.1.6 The Treasury Management Strategy will include suitable criteria for assessing and monitoring the credit risk of investment counterparties which will be used to construct a lending list comprising time, type, sector, country and specific counterparty limits.

1.1.7 Treasury management staff will add or delete counterparties to/from the approved counterparty list in line with the policy on criteria for selection of counterparties.

1.1.8 The Commissioner will use credit criteria to determine creditworthy counterparties for the placing of investments.

1.1.9 In the event that more than one rating agency provides a credit rating for a counterparty, then the Lowest Common Denominator (LCD) approach must be applied when determining the rating for a particular counterparty.

1.1.10 Treasury Management Consultants will provide a weekly update of all ratings relevant to the Commissioner and notify the Commissioner of any changes to credit ratings during the week.

1.1.11 The approved counterparty list and type, limit and period of investment are determined by the criteria set out in the Annual Treasury Management Strategy.

1.1.12 The Commissioner should not place an over reliance on credit rating information. Other market information, such as concerns raised in the quality financial press, should also be used to ascertain the credit risk of a particular counterparty.

1.2 APPROVED METHODOLOGY FOR CHANGING LIMITS AND ADDING / REMOVING COUNTERPARTIES

1.2.1 Credit ratings for individual counterparties can change at any time. The Chief Finance Officer (Section 151 Officer) to the Office of the Police and Crime Commissioner (hereafter referred to as the CFO) is responsible for applying the

stated credit rating criteria for selecting approved counterparties; and will add or delete counterparties as appropriate to / from the approved counterparty list, when there is a change in the credit ratings of individual counterparties or in banking structures e.g. on mergers or takeovers. This is delegated on a daily basis to staff in the Finance Department.

2. LIQUIDITY RISK MANAGEMENT

2.1 CASH BALANCES, BORROWING AND INVESTMENTS

2.1.1. The Commissioner will ensure adequate cash resources, borrowing arrangements and overdraft facilities, for the achievement of business/service objectives.

2.1.2 The Commissioner will only borrow in advance of need where there is a clear business case for doing so and will only do so for the current capital programme or to finance future debt maturities.

2.1.3 The Commissioner will maintain the following:

a) Liquid short term deposits of at least £2m available with a week's notice.

2.1.4 The Commissioner will also monitor the weighted average length of deposits so that the weighted average life of deposits is between 3 months with a maximum of 12 months.

3.3 Forward Dealing

Consideration will be given to dealing for forward periods dependent upon market conditions. When forward dealing is more than one week forward, the approval of the Head of Finance is required.

4. EXCHANGE RATE RISK MANAGEMENT

4.1 Approved criteria for managing changes in exchange rate levels

- a) As a result of the nature of the business, there may from time to time be exposure to exchange rate risk. This will arise from the receipt of income or the incurring of expenditure in a currency other than Sterling. The Commissioner will adopt a full hedging strategy to control and add certainty to the sterling value of these transactions. This will mean that the Commissioner will eliminate all foreign exchange exposures as soon as they are identified; and
- b) Where there is a contractual obligation to receive income or make a payment in a currency other than Sterling at a date in the future, forward foreign exchange transactions will be considered. Unexpected receipt of foreign currency income will be converted to Sterling at the earliest opportunity unless the Commissioner has a contractual obligation to make a payment in the same currency at a date in the future. In this instance, the currency will be held on deposit to meet this expenditure commitment.

5. REFINANCING RISK MANAGEMENT

5.1 DEBT/OTHER CAPITAL FINANCING MATURITY PROFILING, POLICIES AND PRACTICES

- 5.1.1 The organisation will ensure that its borrowing, private finance and partnership arrangements are negotiated, structured and documented, and the maturity profile of the monies so raised are managed, with a view to obtaining offer terms for renewal financing, if required, which are competitive and as favourable to the Commissioner as can be reasonably achieved in light of the market conditions prevailing at the time.
- 5.1.2 The Commissioner will actively manage relationships with counterparties in these transactions in such a manner as to secure this objective, and will avoid over reliance on any one source of funding if this might jeopardise achievement of the above.
