Once complete please send this form for consideration to [redacted], [redacted] Officer for Gwent Police: PCCPoliceCommunityFund@gwent.pnn.police.uk

INTERNAL USE ONLY

OPCC Notes, Observations and Recommendations on Application

Additional queries raised with the organisation:

1) No salaries have been requested to be funded, but we note the various sessions will be led by Coaches, as such are you able to advise how that element will be funded? Are the Coaches volunteers or are they classed as the consultants on the other people costs?
   A: Coaches Volunteer (x2) (Members pay small fee currently)
2) Is the funding you have requested a contribution to a wider project that is already in motion? E.g. if the Coaches are funded already via another source.
   A: New Project within existing Boxing club
3) If it is a wider project please can you provide information on what the project is in its entirety and how it has all been funded?
   A: New Project not funded
4) You have mentioned adults on the application form so the benefits of the project appear to impact on all ages. Is the funding requested to specifically target children and young people or will all ages benefit?
   A: Children and Young People
5) Will your project specifically target children and young people at risk of / already in the criminal justice system, or who have been victims of crime? If so please can you outline what your referral process is
   A: Both at risk and criminal justice. The referral process: work closely with partners e.g Sacro (arrest referral service), South Wales & Gwent Police, Courts, Attorney General Office, Home Office, Ministry of justice, HM Prisons & Probation services i.e. Rehabilitation services & other agencies throughout the criminal justice system (CJS)
6) Can you demonstrate how you have identified your costings? Have they been quoted / website searches etc ?
   A: Website research and quotes from suppliers
7) Can you advise on your rationale in how you have split the amounts over the x3 years, e.g. the first x2 years are at £20k and the third year is at £10k – why is this?
   A: I misunderstood this section of the application as I thought that funding would be split over 3 years, hence why the breakdown, as projects are very challenging within the first 2 years or even fail, 20-20-10 was to ensure that we have the financial support that's needed to assist our project sustainability moving forward.

Recommendation : When Inspector links in with applicant to make further enquiries re answer to question 7 above as does this mean they can function with £10k? or they need £20k per year, if the latter does that mean their bid should technically be £60k over 3 years?

Observations from [redacted] within OPCC 11.08.19

I like this bid but they are over stating themselves and then display a lack of knowledge. This could be because they feel they have to.

They would not be working with the Home Office or MOJ etc. They also say that they work closely with policy makers and commissioners, yet we have not had contact with them before. I do not know who SACRO is and we do not want them to link with South Wales Police for this project.

I see that they have not answered the last of the further questions.

My recommendation is to have a further chat through the bid and some of the above concerns with a view to funding year 1 and the other years being conditional on year 1 delivery.

Inspector / Local Policing Area / Specialist Department Notes, Observations and Recommendations on Application

This is a development on what they are currently providing. He is hoping to extend the provision he currently makes to cover mentoring also and provide subsidised kit/session for the underprivileged young people.

From the outset it does look like a really good scheme, something that I think will get a lot of buy in from the community (being a club in the heart of it).

I think it fits in perfectly with our current strategy about building strong resilient communities and our SOC plan.

I would recommend this for discussion. There may be some work needed around the budgeting and how many young people they are hoping to reach but it does seem really promising.
